

SOCIAL CARE DIGITAL PATHFINDERS

The full list of Pathfinders funded for implementation is available below:

Bristol City Council	Real Time co-ordination of packages of care and digital workflows across their Integrated Care Bureau.
Friends of the Elderly	Roll out of integrated Acoustic Monitoring Technology with Digital Care Planning.
Hft (learning disabilities charity)	Roll out of “My Health Guide” for Learning Disabilities across large user groups.
Lancashire County Council	Implementation of digital discharge messaging service (ADW) and integration with local health care record.
Leicestershire County Council	Rollout of NHSmail and access to Electronic Patient Record to care providers. Scale during programme is 60% of Leicestershire care homes accredited (200+).
London Borough of Bexley	Use of remote monitoring and predictive data analytics to positively impact a person’s wellbeing and quality of life – aiming to prevent, reduce and defer the escalation of needs. Development of an evidential base to demonstrate the interdependent relationship between a person’s social, physical, mental health and social care outcomes
London Borough of Islington	Free Text for predictive analytics across large region. Scale during programme is four local authorities across North Central London.
National Care Forum	Creating a network of innovation hubs designed to assist and inspire the care and support sector to embrace technological and digital innovations which improve the lives of people accessing, or working in, their services.
Manchester City Council	Extending digital discharge service (ADW) across the region. Scale during programme is 11 local authorities.
Nottinghamshire County Council	Developing current interoperability standards across health and social care in partnership with national programmes. Intention is to scale this nationally, including at least two Local Health and Care Record (LHCR) organisations.
South Gloucestershire Council	Extending Connecting Care to care homes, and Digital Red Bag. Scale during programme is three local authorities and a number of care homes.
Sutton Council	Expansion and standardisation of the digital red bag. Scale during programme is 20% care homes across SW London and national capability.
Westminster City Council	Expansion of care information exchange to care providers, local authorities and carers. Scale

	during programme is four local authorities and two trusts with potential for whole NWL region.
Wirral Council	Extending digital discharge service (ADW) functionality. Scale during programme is national.
Wolverhampton City Council	Extend range of data for Artificial Intelligence (AI) and machine learning e.g. delayed discharges, housing, education, police and crime, socio-economic factors, the environment, private sector. Scale during programme is across two local authority areas with potential to extend across STP footprint.
Worcestershire County Council	Extending AI and Data Modelling to include Telecare and Assistive Tech Data. Scale during programme is across two local authority areas with potential to extend across STP footprint.
